

Welcome to the **Quantum Process[®]** website.

Quantum Process is a **unique negotiation method** that is fundamentally different from traditional methods.

The method works in two key ways :

- 1- By advancing the negotiation process through **valid decisions** that remain consistent with action-based and behavioural goals.
- 2- By **balancing perceptions**, resolving conflict and reducing the tension that exists in the negotiation process.

Our website aims to:

- 1- Illustrate the **uniqueness** of the Quantum Process method.
- 2- Demonstrate the distinct **benefits** that this method offers.
- 3- Provide 2 free on-line personal **assessments** that reveal your current **strengths as a negotiator** (assessment available following our evaluation) and your psychological profile (assessment available immediately by email).

We invite you to read on and learn more about Quantum Process.
